

## Village Plan 2007

The responses to the questionnaire indicated that most people found out about the activities of the Council from the Parish Magazine (85%) but also used the notice boards (47%) and received information by word of mouth (42%). Although most respondents indicated that they were aware of the Church website, only 7% used it as a source of information about the activities of the Community Council.

Residents were asked how well the Community Council represents their interests and concerns. 15% of respondents felt that the Council did so very well, a further 61% felt that it did so reasonably well, and 14% felt that it did so poorly.
